

Exit Realty International Launches Newly Sponsored Home with “Blitz” Build

Members of EXIT Realty International from several different locations recently gathered in Newark in early March for a “Blitz Build.” The EXIT employees were from several different agencies in Newark as well as far away participants from the Toronto area. In a few day’s time they made great progress on a home habitat has just begun.

“It is overwhelming to drive up and down the streets of this one Newark neighborhood where on some streets every third, every fourth, every fifth home was built by Habitat, and realize the impact a single individuals can have on the world around them,” said Christine Ireborg, EXIT’s Corporate Habitat for Humanity Representative.

EXIT Realty is a major supporter of Habitat, with active participation in eleven homes in Newark and over \$1.5 million donated to Habitat for Humanity International.

It takes an army to make big progress, and here they are ready to go! Out in front in the white shirt are Dave Zurheide (HFHN Executive Director) and beside him is Christine Ireborg, EXIT’s Corporate Habitat for Humanity Representative.

With the floor in place, next are exterior and interior walls for the first floor. All stay in place permanently.

Everyone learned to appreciate the old adage “measure twice, cut once.” Here we see the Exit crew getting ready to cut some lumber that will become part of the first floor of the house.
