

Sponsorships Available!

Habitat Newark now has 16 additional building lots and will be breaking ground in the near future on several of them. This means that house sponsorships are available and are assigned on a first come, first served basis.

We are now building our first two-family house in West Orange, Women Build III and Abraham House II. We will be breaking ground in November for 75 South 11th Street, a house sponsored by Exit Realty International. At this point we have 14 more lots that we intend to develop in the next two years. The next sponsorships available are located at 204 and 216 South 12th Avenue in Newark.

Many organizations have sponsored houses built by Habitat for Humanity Newark. A number of churches, social groups, businesses and civic organizations have raised funds through a variety of events and projects. Families and individuals often sponsor houses. You can either sponsor a full house or important parts of the building.

If you or your group would like to sponsor a home or would like to learn more about the possibilities, please call Don Blaesser, Deputy Executive Director at 973/624-3330.

The Gardner Family, pictured here with some of their friends, plan a special day each year when they volunteer to build. This family donated a home in honor of their parents and their brother, Jeffrey, who was killed in New York City on 9-11-01.
